PRODUCT INFORMATION

Valvoline[™] Airco Cleaner

Valvoline™ Airco Cleaner is a high quality cleansing foam to condition the air-conditioning in the vehicles.

Applications:

Air Conditioning

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Airco Cleaner should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake before use.

Before treatment, switch off the engine and electrical installations.

Apply the foam to the condenser of the air-conditioning by means of the enclosed adapter.

Insert the adapter about 30 centimeters into the air inlet (please refer to the user manual of the vehicle for the location of the air inlet) of the air-conditioning and completely empty the can.

After applying, do not switch on the engine or the electrical installations for at least 30 minutes.

In these 30 minutes the foam will break and leave the system through the condensed water outlet as a fluid.

Product Characteristics:

- Effective cleansing foam
- Subtle scent
- Optimizes the functioning of the air-conditioning
- Prevents malfunction 360° valve

This information only applies to products manufactured in the following location(s): Australia

Part Number	Pack Size
887067	500 mL

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request via your local sales office or 1800 804 658 or through our website www.valvoline.com.au

Protect the Environment

Take used oil to an authorized collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
